## Experience

I am a mum to two young children. I have 10+ years experience working with children. I have experience in many different settings such as a nanny, au pair, and within a centre environment. In my free time I enjoy getting out into nature with my children to places such as Willowbank, the beach, or going to a new playground.

## Home Environment

My home environment is set up for children as I have two young children. My home environment is set up with different age groups in mind to allow for different play spaces and activities to be set up with each child's interests in mind. I have an outdoor space where children can enjoy messy play, riding bikes, playing in the sand bit, and more. My home environment had activities and resources set up based on the children's interests and development.
Other activities include:
-Messy play and water play
-Group times with stories and songs
-Arts and crafts
-Sensory play
-Climbing and gross motor activities

## Childcare Philosophy

I like to stick to a daily routine as best I can to help children to know what to expect and build independence within their

daily routines as they get older.

Each child is unique and I try to incorporate each child's learning needs and wishes in our daily routine and activities. While only having up to four children in my care daily, I am able to create a positive bond with each child and help them on their learning journey through play and real life experiences.

## Community Involvement

We get up to all sorts of fun things out and about like:

-Home Grown Kids playgroups

-Heading out to Willowbank

-Airforce museum

-Playgrounds and parks

-Playdates with other Educators

-Other activities based on children's interests
