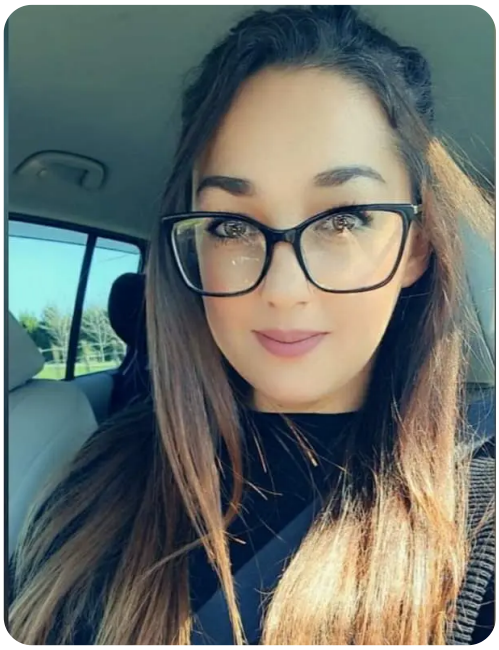
Lisa

Waikato



Experience

Hi, my name is Lisa. I’m a married mum of four, aged between 12 and 19, and I have been caring for babies and children for many years as an Educator with Kids at Home.
I am based locally to Hamilton Lake, making my daycare an ideal option for families working at Waikato Hospital and in the surrounding area.
I am fully trained in first aid, with extensive knowledge and training in allergies and anaphylaxis, and take children’s health and safety very seriously.
I am available Monday to Friday, with flexible hours to suit your needs.

Home Environment

My daycare is a dedicated childcare space, completely separate from my family home, providing children with their own special environment to play, learn and explore. We have multiple outdoor play spaces and two dedicated sleep rooms, creating a calm and comfortable environment for both active play and restful sleep.
I love creating engaging, sensory-based experiences for babies and toddlers, as well as providing fun, play-based learning opportunities that encourage older children to explore, discover and develop their confidence and independence.

Childcare Philosophy

I believe every child is unique, and I value and respect each child’s individual needs, interests, personality and development. I have experience working closely alongside whānau of neurodivergent children and understand the importance of creating an environment where every child feels safe, supported, included and valued.

Community Involvement

We regularly attend playgroups, gym and music sessions providing valuable social interaction and opportunities for making friends.
