Home Environment

My Home Based childcare service offers a nurturing and loving atmosphere where children thrive and grow. Children receive personalised attention in a small group setting tailored to their unique needs and interests.

We're located close to Papamoa Primary school.

At home, children are active and busy playing, exploring and creating in a well equipped garden and indoor space.

Childcare Philosophy

My programme embraces creativity, curiosity, and a love for learning through play-based fun filled days.

Community Involvement

We love nature and the outdoors so take every opportunity to head out to explore either at home or wider afield in our community.

From outdoor adventures to indoor exploration, our days are filled with laughter, fun, and memorable experiences that your child will cherish.

We are a very social bunch and enjoy community outings to playgroups, music groups, trips to the library, parks, bush and beach walks as big parts of our routine.
