Experience

Hi, my name is Lisa. I have been caring for children and babies for many years as an Educator with Kids at Home. I have 3 children of my own.

I value individual children's needs and this is implemented into the routines and play based learning I provide. I love creating different sensory based activities with babies, and offer structured play and learning for older children.

I am available Monday to Friday and will also discuss weekend hours if needed. I have a current first-aid certificate and extensive knowledge of allergies and anaphylaxis.
