Waikato

Experience

Hi, my name is Louise and I have over 25 years experience working with young children. I also offer a free pick up and drop off east of the river to support my families.

Home Environment

My place is a home away from home where wonderful memories are made! I encourage lots of natural and guided play, organised outings and offer great opportunities for learning. I feel this is the ideal daycare option for children from birth to the age of five. The smaller ratios, in particular, mean less exposure to illness as well as the ability to keep the children's routines as similar to what you do as a family in your own home.

Childcare Philosophy

I enjoy helping children strive to reach their goals, building a relationship with each child and learning about their individual interests and personalities! Life skills I focus on in my home with the children are sharing, interacting with and respecting one another and their belongings. I also support the children engaging with peers of different ages whether this is playing with or alongside them.

Community Involvement

Our group regularly attend Kids at Home weekly playgroup and gym sessions. We're big explorers so we use our
