Experience

Hi! My name is Maggie, I am a mother to two wonderful children as well as providing in-home childcare with Kids at Home!

Home Environment

Our home in Reparoa has a wonderful environment for my care children to learn and play. The area is completely focused on the child's learning without any distractions. We have a cool playhouse which is very popular with our wee group.

Childcare Philosophy

As a Home-based Educator, I provide a nurturing environment where your child will feel at home. I believe that a relaxed learning atmosphere where children can learn while playing is very important for preschoolers. My goal while your child is in my care is to ensure they have a positive outlook on their learning journey to prepare them for future schooling.
