Experience

Natasha has worked caring for children since 2007, doing before and after school care for families, relief teaching at early childhood centres, working for an afterschool programme and becoming a Home Based Educator in 2018. Natasha has two children of her own.

Home Environment

Natasha has a child safe home with a good indoor/outdoor flow. She shares her home with two child friendly dogs and one cat. Outside there is a large backyard and trampoline. The house is very warm and secure and in a good location near a school, play areas and a beach.

Childcare Philosophy

Natasha believes every child deserves a fun caring environment rich in love, care, confidence and patience and aims to create a special place for children to come and enjoy while learning through play.

Community Involvement

Natasha enjoys making art projects and crafts with children and being creative with playdough, slime and a range of other activities. She attends local playgroups which have a wide range of activities and provide social interactions with other children and families and music toys, dress ups and role play toys at home. Getting out and about in the local

community is important to Natasha.
