

Rachel M B

Waikato

Experience

Rachel has three of her own children who are all school aged. She has been providing Home Based ECE care since 2008, and has her NZ certificate in Early Childhood Education and Care - Level 4. Rachel is passionate about children, and providing them with the best possible start on their journey through education. Getting the foundations right are extremely important to her.

The close friendships they form are beautiful to see.

Your child reaching their full potential is her top priority.

Home Environment

Rachel's home is on a large-fenced section with a sandpit, trampoline, and bikes and scooters to enjoy. Inside resources include play dough, painting, story time and appropriate and educational toys.

Childcare Philosophy

What Rachel loves about home-based care is that it allows for young children to form strong, responsive and reciprocal relationships by having low ratios. Children learn to share, take turns, form friendships and develop emotional intelligence. This sets them up positively for life long learning. These low ratios allow for very close supervision, no child's needs go unnoticed.

Community Involvement
