Experience

Hi, I'm Tracey and I have been welcoming children into my home for over 20 years. I am qualified and first aid certified. I am Mum to 3 and have 5 grandchildren.

I provide high-quality home based care in a safe and welcoming environment where children feel valued and supported. Learning and engaging in activities that encourage creativity, confidence and social development. Set in a calm, family focused atmosphere, children enjoy meaningful learning through play while developing essential life skills.

Home Environment

Nestled in a peaceful rural setting, my home based learning space offers children a unique opportunity to grow, explore and learn through nature. surrounded by open spaces, children are encouraged to discover their world through hands on experiences, outdoor play and creative explorations.

Childcare Philosophy

It is important to me to work alongside families to maintain consistent routines from home to care and providing individually tailored child-led, play-based learning experiences, connecting links with family and community, exploration and discover in the natural world.

Community Involvement

We have lots of approved adventures that happen in our community. From visiting the local school for events like Ag Day, to local farms, forests and beaches. With trips to the library, local parks and playgroups all part of our regular planned activities.
